The business was not large at the Stock Board this morning, but the tendency of prices was upwardespecially for the Western Shares, which were in demand at advancing rates. Erie sold more freely than other fancies, and closed, after the Second Board, at 36-about the closing price of yesterday. Some of the foreign houses are reported to be selling. Reading was firmer, and closed at 924. Hudson River was also better. Panama, 1054. N. Y. Central, 924 which shows a steady market. Cumberland was dull, but steady; and Nicaragua sold to moderate extent at hear that Mr. Minister Wheeler will be directed to inquire into the matters between the Transit Company and Walker; and another dispatch is re-ported to have been received that the Government is "all right" on the Transit question.

The sales of Cleveland and Toledo are large, and the market advanced to 79, notwithstanding the cur-rent rumor that the dividend cannot be paid at the usual time. It is about time for the announcement of this dividend, but we hear nothing official in regard to it. Galena was in demand at 114, and Michigan Southern at 954. Chicago and Rock Island sold at 961. &c. The Western roads are beginning to recover from the falling off in business occasioned by the severe weather of the last two months, and will doubtless give a good account of themselves in April. Railroad Bends are firm, but without much activity. Illinois Central improved to 91; Eries, 1875, 90, &c. The sales of State Stocks were \$120,000 at rather lower prices. Louisianas, 90; Indiana 5s, 85; Virginias, 93); Missouris, 844, &c.

In Exchange there has been a fair business done for the steamer, at rates showing in some cases 1 8 cent decline on the previous steamer. There has been a better supply of commercial bills, and we understand that considerable amounts were left over, having been held above the market. We quote com mercial Sterling, 81 291; Banker's, 91 291, with firstclass bills at 94 F cent. Francs, 5.224 @ 5.174.

We notice in Freights: To Liverpool-27,000 bush. Corn at 7d, a 7id., in bulk and ship's bugs; 800 bales Cotton, 9-32d. 25-15d.; 500 Racon, 25s; 500 bbls. Rosin, 2s. 6d. To London-Bacon, 32s. 6d.; some Turpentiue, 3s. 6d., and toe. Beef, 5s., and 6s. for nimall and large tes.

The business of the Sub-Treasury was: Paid, \$29,-276 59; Received, \$172,207 15, including \$50,000 from Chivago; Balance, \$5,286,000 92. Paid for Assay Office, \$5,473 04; Paid on Disbursing Checks, \$29,528 77. The funeral of Mr. Nelson Robinson will take place

to-morrow (Wednesday) at 4 o'clock p. m. His son, who had been South for his health, arrived to-day on the Savannah steamer.

The extraings of the Michigan Central Railroad for the second week in March, were as follows:

Total ..... \$32,285 74 \$32,356 87 Inc. \$573 13 In Provisions the business is moderate and prices unchanged. M. es, \$15, 75 \$15, 811; Prime, \$15. Cut Meats and Ba, on are steady. Lard is lower and in moderate demand. . ow grades of Flour are heavy.

The export demand is . woderate. Western Canal sells at \$6 99 \$0 \$7 25. Go. of Wheat for milling is in

demand; but low grades are dp. " Barley is firm; bu;

Rye is heavy. Corn is in demand and firm. Western Mixed is 68 0' 10c. Sugar and Molames are steady, and in fair de nand. The auction sale of Coffee went off at full prices and with great animation; the sale was 11,750 mats East India at 13@15c. Cotton is rather firmer, and the sales are 4,500 bales, and for the week

f.rmer, and the sales are 4,500 bales, and for the week 20,000 bales. Mr. Wright's circular says:

-We have had a fair inquiry for Cotton in this market during the past week, and prices are fully sustained. Exporters have operated to a moderate extent, both for Liverpool and the Continent. Spinners continue to buy moderately. Speculators are quiet; indeed the market is steady and firm on its own strength, based on the opinion of holders, and without the aid of speculation. This opinion will be tessed, should the coming steamers for four or five weeks bring news of a yielding market in Liverpool, enequent on advice of our large receipts, and which is generally looked for.

I estimate the sales for the week at 7,500 bales, the clearances during same time have been—for Liverpool, 4,200, Gilascow, 542, Havre, 474; Hamburg, 512; Antwerp, 573. Total, 6,731 bales.

I estimate the sales for the week at 1,000 ones, and coarse acrois peane time have been for Liverpool, 4,239; Glazgow, 542; Harve, 674; Hamburg, 512; Antwerp, 973. Total, 6,731 bales.

Cotton in transitu has been in moderate request, and where the pickes of last week have been accepted, sales have been the pickes of last week have been accepted, sales have been the pickes of last week have been accepted, sales have been the pickes of last week have been accepted, sales have been the pickes of last week have been accepted, sales have been study made; there is smit signe amount on the basis of id-wick higher rates are demanded. I quote on the basis of id-wickly flow of the picket of the last of the week have been 9,000 bales, closing firmly.

Nouthern Markots continue active, and prices are well supported. Large orders were received by the Arabia, and further orders were relegrated on the arrival of the Persia, which caused, in part, the large business as adviced by telegraph from Mobile and New-Orleans, up to Saturday last. In Charleston and Savannah the markots are sustained by the confident opinions expressed by many that the crop is over-estimated at 3,00,000 deales, and by the furnishes with which it is insisted that the Atlantic crop is nearly marketed. The receipts in the inlend towns during the last week or two having fallen of, coorages this idea. From New-Orleans too we hear that the planting will be very last this Spring. Some parties were buying in consequence, believing that two such crops as the present class of September last, as compared with the previous three years:

1856. 1855. 1854. 1859.
